Location : Bangalore, India

EDUCATION

Visvesvaraya Technological University   **August 2014 – July 2018 | Bangalore, India**

- Awarded First Class with Distinction in Bachelor of Engineering (Information Science and Engineering) securing 72.26% aggregate.
- Won 2nd place at "TECHORIZON" a Project Exhibition and National Conference conducted by New Horizon College of Engineering, Bangalore.

EXPERIENCE

Glamplus   **November 2021 – Present| Bangalore, India**

Role : Software Engineer

- Building and refactoring their SAAS (web and mobile) and B2B (web) platform.
- Working with the sales team to understand customer pain points and develop solutions.

Wissen Technology   **March 2020 – November 2021| Bangalore, India**

Role : Software Engineer

- Worked on Flipkart's vendor-facing web application using ReactJS.
- Organizing weekly knowledge-building sessions with the Wissen UI Team at Flipkart.
- Developed a POC on integrating passenger applications using micro-frontend.

Role : Associate Software Engineer

- Drive technical and functional queries with regional stakeholders at GE during the UAT phase.
- Refactored MyGEHeathcare app with Redux and GraphQL than traditional prop drilling.
- Designed and configured end-to-end notification system using Firebase cloud messaging service.
- Helped the data analytics team make better decisions by integrating Google Analytics.
- Revamped their project setup, configured multiple environments within the application for 3rd party services, and was responsible for timely build deployment.

Codewave Technologies   **July 2018 – February 2020 | Bangalore, India**

Role : Associate Software Engineer

- Mentored and supervised newly joined interns into the Mobility Team at Codewave.
- Being an active member of the Hiring Team, I helped them in initial screening rounds.
- Worked on Toppscholars, A EdTech React Native app.
  - Implemented custom exam modes like adaptive, subjective, and objective tests.
  - Created a chat platform for students to clear their doubts with subject matter experts.
- Worked on Scoutnex, A football talent networking application built using React Native.
  - Build business requirements like Job posting, Profile search, Football events, and videos.

- ◦ Integrated Razorpay payment gateway for subscription plans.

Role : Intern

Internship duration: January 2018 –May 2018

- Worked on Tourpal, A Tourism information application built using Android.
  - ◦ Built an Augmented Reality feature, which helps you know about the history of a monument when the camera is focused on it.

PUBLICATIONS

- Ron Astle Lobo, Shridhar Suresh Bhat, J Shesha Shankar and S. Srividhya "Development of Tourism Information System using Content-Based Fiiltering", International Journal of Engineering Research and Technology, Vol 7 Issue 05, May-2018.

AWARDS

- "Rising Star Award" by Codewave Technologies for demonstrating ownership, participating and transforming projects.
- Awarded merit scholarship for 4 years during engineering studies by World Konkani Centre, Mangalore.

TECHNICAL SKILLS

- JavaScript, React Native, ReactJS, NodeJS, Redux, GraphQL, Firebase, AWS-IoT, RealmDB, Rest APIs, Styled-Components**,** Git, Windows/MacOS.

VOLUNTEERING

- Active alumni at the World Konkani Centre, helping upcoming engineering graduates become industry-ready through mock interviews and interactive sessions.
